Rheumatoid Arthritis Register

2025: A YEAR IN REVIEW

96

NHS sites have
provided data

9372

Clinical follow-ups
have been submitted

619

Participants have
been recruited

462

Patient follow-ups
have been submitted

2 PUBLICATIONS USING DATA FROM THE BSRBR-RA STUDY

Association
between body
weight and
tocilizumab
effectiveness
in rheumatoid
arthritis

Potential impact of
European Medicines
Agency measures to
minimise risk of serious
side effects on JAKi
prescribing and
utilisation in the UK

Looking to 2026:

- **Celebrating 25 Years of BSRBR-RA.**
- **Recruitment to the study** remains a priority. We are particularly interested in those starting JAKis.
- **Collection of follow-up data continues.** If you need support prioritising follow-ups, just get in touch with us.
- Meet the team and support the BSR Registers at the **BSR Conference** (April 2026) in Glasgow. We have some goodies for you! Get in touch with us to arrange.
