3 Click Edit or Add new as appropriate.

To record a stop (e.g. for Methotrexate) select **Edit** and complete the form as needed.

NB The criteria for entering part missing dates is as follows:

- Enter '15' for a missing day
- Enter '06' for a missing month
- Please indicate the date is estimated

NB Please enter dose/route/frequency changes as a stop and restart.

Other Current Therapy : Edit Drug

Drug name	Methotrexate
Start date	15/06/2022 (estimated)
Stop date	<input type="text" value="dd/mm/yyyy"/>  Estimated: <input type="checkbox"/>
Stop reason	<input type="text" value="Select stop reason"/> 
Adverse Event/Other stop reason	<input type="text"/>

1 Enter a stop date and indicate if estimated

2 Enter a stop reason

Please remember to give details of all adverse events in the Adverse Events section of this follow up.
