Rheumatoid Arthritis Register

# Switching a cohort

## Before requesting a cohort switch, please check the following:

- Patient has a diagnosis of Rheumatoid Arthritis
- Started an eligible drug within the last 24 months (Drug eligibility can be checked on our website)
- Drug start date is known
- A new current version Consent Form has been completed

→ If all of the above are available please continue with the registration.

Go to the patient summary page for the patient you want to re-register. On the menu on the left-hand side, click 'Switch Cohort'

**Menu**

- View All Patients

## Patient summary

▼ **Study ID:**      **Cohort: Benepali**

Consent Date: 11/09/2022    Consented By: Ms BSRBR RA    Created by BSRBR RA on 17/01/2023

	Follow up	Due date	Status	Date entered	Date last updated	Editable?
Select	Baseline	11/10/2022	Completed	17/01/2023	17/01/2023	Can be viewed only
Select	1	11/04/2023	Queried	15/03/2023	12/02/2026	Can be viewed only
Select	2	11/05/2023	Completed	10/05/2023	12/12/2025	Can be viewed only
Select	3	11/04/2024	Completed	27/03/2024	12/12/2025	Can be viewed only

Choose the appropriate drug from the dropdown list and complete the start date, dose, route and frequency. Please indicate whether there is a new consent form and click **Submit**.

Patient Status: Current [Click to reveal Patient Identifiable Data]

## Switch Cohort

If the patient has commenced a new therapy, they might need to be switched into a new cohort. Please refer to the criteria for registration as a cohort switch [Here](#)

For the new cohort, a new baseline will be created and the follow-ups will reset as a new registration. The current cohort record will be cut-off at the date of exposure to the new drug; any existing data after the cut-off date will be moved to the new cohort record for this patient. Please ensure that the existing follow ups are fully complete to the best of your knowledge before requesting a cohort switch.

New drug:  ? 

Commenced date:   

Dose and unit:   

Frequency:  

Route:  

Subsequent infusions (Rituximab only):

Any other information:

Confirm consent form available:  

Once you complete the form, a feedback note with the details will appear under the 'Unsolved Queries regarding this patient' section on the patient summary. The administration team will check the details and raise any necessary queries before switching the cohort and generating the new patient ID.

**Patient Status:** Awaiting Approval [Click to reveal Patient Identifiable Data]

**Study ID:**      **Cohort:** Rinvoq    **Baseline Due Date:** 16/09/2025    **Status:** In Edit Window

## Other Current Therapy

Is the patient currently receiving any other therapies?    Yes    No

No current therapy entered yet. Select a drug below and click "Add".

### Add new therapy

**Drug:**     

**Start Date:**           Estimated:     (start date is only required for DMARDs)

If the patient is not currently receiving any other therapies, select **No** and then click **Comorbidity** on the left-hand menu.

The screenshot displays a patient summary page for 'Training Centre 1 home / All patients / Patient summary /'. The patient status is 'Awaiting Approval' with a link to reveal identifiable data. The study ID is 'Cohort: Rinvoq', baseline due date is '16/09/2025', and the status is 'In Edit Window'.

The main section is titled 'Other Current Therapy'. It asks 'Is the patient currently receiving any other therapies?' with radio buttons for 'Yes' and 'No'. The 'No' option is selected, and a callout box labeled '1. Select No' points to it. Below this is a light blue box stating 'No current therapy entered yet. Select a drug below and click "Add".'

The 'Add new therapy' section includes a 'Drug:' dropdown menu (currently showing 'Select Drug'), a 'Start Date:' field (format 'dd/mm/yyyy' with a calendar icon), an 'Estimated:' checkbox, and a note '(start date is only required for DMARDs)'. There are 'Add drug', 'Next Section', and 'Tutorial' buttons.

On the left-hand menu, the 'Comorbidity' item is highlighted with a blue arrow pointing to it, and a callout box labeled '2. Click Comorbidity' points to this menu item. Other menu items include Patient, Patient Summary, CBQ, Consent, Disease Activity, Biologic Targeted Therapy, Other Current Therapy, Previous Biologics / DMARDs / Steroids, Additional Info, HRQoL, HAQ, EuroQoL, Close Edit Window, and Feedback.

If the patient is currently receiving any other therapies, select **Yes**, click the drop-down menu to select the therapy, and click **Add drug**.

Training Centre 1 home / All patients / Patient summary /

### Other Current Therapy

**Is the patient currently receiving any other therapies?**    Yes    No      **1. Select Yes**

No current therapy entered yet. Select a drug below and click "Add".

#### Add new therapy

**Drug:**            **2. Select the drug from the drop-down**

**Start Date:**             Estimated:      (start date is only required for DMARDs)

     **3. Click Add drug**

**Patient**

- Patient Summary
- CBQ**
- Consent
- Disease Activity
- Biologic Targeted Therapy
- Other Current Therapy
- Previous Biologics / DMARDs / Steroids
- Comorbidity
- Additional Info
- HRQoL**
- HAQ
- EuroQoL

Continue the same process until all the patient's *Other Current Therapy* has been added. When complete, click **Comorbidity** from the menu on the left-hand side.

The screenshot shows a web application interface for managing patient therapy. On the left is a vertical navigation menu with items: Consent, Disease Activity, Biologic Targeted Therapy, Other Current Therapy, Previous Biologics / DMARDs / Steroids, Comorbidity, Additional Info, HRQoL, HAQ, and EuroQoL. Below the menu are buttons for 'Close Edit Window' and 'Feedback'. The main content area is titled 'Other Current Therapy' and contains a form with the question 'Is the patient currently receiving any other therapies?' with radio buttons for 'Yes' and 'No' (selected). Below this is a table with columns 'Edit', 'Drug', 'Start Date', and 'Delete'. The table lists three entries: Methotrexate (07/10/2009), Salbutamol, and Gabapentin. Below the table is a section 'Add new therapy' with a 'Drug:' dropdown menu (set to 'Select Drug'), a 'Start Date:' field with a calendar icon and an 'Estimated:' checkbox. At the bottom of the main area are buttons for 'Add drug', 'Next Section', 'Tutorial', and a large blue button labeled 'Click Comorbidity'. A blue arrow points from the 'Click Comorbidity' button to the 'Comorbidity' item in the left-hand menu.
